Using JoltPost:
Understanding Cross Posting

Log into your third-party platforms (JoltPost and Poshmark) in separate tabs.
You must be logged in before cross-posting with JoltPost.

Enter in your storefront access token and your storefront URL. Then click Select a Channel and Load Inventory. *Tip: have your settings to autofill the fields so these will auto populate each time you go to load your inventory through JoltPost.*

Pick the specific attributes you would like to use – for more information about what each attribute means watch our attribute video or read through the attribute PDF.

To add multiple attributes, click on **+ Add Additional**. For this example, we will be looking for items that range between \$75-\$1000 and were created between the dates 10-26-2021 and 10-28-2021. Once you have selected your attributes, click on load inventory.

The screenshot shows a web browser with several tabs open. The active tab is 'Jolt Post' with the URL 'chrome-extension://omfnknbhmfnjpkkgkfmchkhmndnjpigaf/JoltPost.html'. The browser's address bar and navigation icons are visible. Below the browser, there is a list of three clothing items, each with a thumbnail image, a title, a description, and a set of attributes. A yellow progress bar is shown below each item's attributes, with the text 'Not Selected' underneath it.

| Item | Image | Title | Description | Condition | Size | Color | Brand |
|------|-------|--|--|---------------------|-------|--------|---------------|
| 1 | | Misook Size 3X Yellow Acrylic Blend Striped Cardigan NWT | gid://shopify/Product/6602039132183 SKU: 208-2891 | Brand new-with tags | 3x | Yellow | Misook |

| 3 | | Ulla Popken Size 32/34 Brown Polyester Sheer Cardigan | | Used | 32/34 | Brown | |

All of your items that correlate to the attributes you input will load in the background. Once loaded, you can close the Load Inventory window by clicking the X in the top right corner.

| Item | SKU | Price | Type | Brand | Status |
|--|----------|--------|----------|---------------|--------------|
| Sweater | 208-2890 | 120.00 | Sweater | Ulla Popken | Not Selected |

| Eileen Fisher Size 3X Brown Rayon Blend Pants NWT! | 208-2892 | 160.00 | Pants | Eileen Fisher | Not Selected |

Click on the box to the left of the item you would like to cross post. Then the status bar will shift to orange and say Selected.

The screenshot shows a web browser window with several tabs open. The active tab is 'Jolt Post' with the URL 'chrome-extension://omfnknbhmfnjpkkgfmchkhmndnjpigaf/JoltPost.html'. The browser's address bar and search bar are visible. The page content includes a navigation bar with 'Home' and 'Help' links. Below this, there are two input fields: 'Storefront Access Token' containing 'shppa_7c528afe7b96efb7b5f30cc8d9c06i' and 'Request Inventory' containing 'https://resellxl.myshopify.com'. A red button labeled 'Select a channel' is open, showing a dropdown menu with three options: 'Load Inventory', 'Post to Tradesy' (highlighted in blue), and 'Post to Poshmark'. To the right of the dropdown are 'Search' and 'Hide unselected cards' buttons. Below the dropdown, there is a summary of inventory: 'Inventory Loaded: 71 Results', 'Showing: 71 Cards', and 'Selected: 1 Items'. The main content area displays a product card for 'Ulla Popken Size 36/38 Brown Cotton Blend Sweater'. The card includes a small image of the sweater, a checkbox, and a table of attributes: Condition (Used), Price (120.00), Size (36/38), Type (Sweater), Color (Brown), and Brand (Ulla Popken). A yellow progress bar at the bottom of the card is labeled 'Not Selected'.

Scroll all the way to the top of the page and click on Select a Channel, then click on the first channel you would like to post your item – we will be showing Tradesy first.
